

Autumn 2017 Conference

Infor Offices, Blythe Valley

11th October 2017

Morning Programme

09.00 *Registration, refreshments and networking*

09.30 **Welcome & Introduction**

Chris Truin, Baan LN User Group Chairman

09.45 **LN Roadmap**

Peter (JP) Van Dam, Principal Development Analyst, Infor

An overview of the latest developments of Infor LN including multi-site & intercompany trade.

10.15 **Demo of Infor Concierge, the One-Stop-Shop for all of YOUR Infor**

Sinead Knell, Director Infor Subscription Services

Join this session to learn about an exciting new tool that will become your one place for all things Infor. Infor Concierge is individually tailored for each customer and partner, proactively delivering everything you need to know about your Infor services and solutions. You'll have access to updates on support incidents, quick view and voting on product enhancements, dates for recommended classes, information on product-specific education classes and webinars, details on upgrades needed for Infor products and much more. Designed in conjunction with the Infor Customer Experience Board, Infor Concierge will make it easy for you to find answers and help maximize the value of your Infor relationship.

10.45 *Refreshments and networking*

11.00 **LN Multi-Site**

Peter (JP) Van Dam, Principal Development Analyst, Infor

Peter will present LN Multi-Site and Inter Company Trade functionality.

12.00 **Presentation and demonstration of Birst working with LN**

Richard Neale, Marketing Director, Birst

With a critical mass of Infor CloudSuite TM subscribers and petabytes of mission-critical data, Birst hat now complements and further strengthens Infor's best-in-class EPM applications, provides a single, elegant analytics platform for discovering and sharing trusted insights, correlations, predictive actions while connecting users and data in an enterprise-grade user experience.

12.45 *Lunch and networking*

Autumn 2017 Conference

Infor Offices, Blythe Valley

11th October 2017

Afternoon Programme

13.30 **Building a digital transformation strategy with Infor**

Matthew East, Digital Strategist, Infor Hook & Loop

To move toward a digital, service-based focus, organisations need a clear vision and strategy. Learn how Infor can help you manage a successful digital transformation.

14.15 **Extensibility hands-on - a great reason to upgrade to LN 10.5**

Andy Donn, ARC Gateway

- Learn about extensibility within LN so you can easily modify the solution without performing customisations.
- Starting from a simple one-line extension to a standard session Andy will demonstrate some of the power of extensibility to create entirely new functionality in LN 10.5 without source code.

14.45 *Refreshments and networking*

15.00 **Roundtable Discussion**

Chris Truin, Baan LN User Group Chairman

15.30 **Close**
